CO-OP FUEL TEAM

Across Western Canada, the CO-OP® Fuel Team works closely with operators to understand the needs of their businesses and make informed recommendations.

Today, a trained and experienced Co-op Fuel Team member can help you get the job done with the following products and services:

- Diverse fuels and lubricant products built for the toughest jobs and biggest machines
- Trusted advice, technology and industry-leading support
- Extensive distribution network for fuels and propane

CO-OP® design, CO-OP®, TEMPO® design, TEMPO®, WESTERN NATIONS®, D-MO® and TORC® are registered trademarks of Federated Co-operatives Limited. TOP TIER™ Trademark of Federated Co-operatives Limited. All others are trademarks of their respective companies.

LIFETIME MEMBERSHIP BENEFITS

When you're a member of your local Co-op, you're also an owner of your local Co-op.

That means our success is your success.

Co-operatives are unique, locally owned businesses that give back to their communities. As a Co-op member, you're entitled to share in the profits of your local Co-op through equity in the business. Some associations offer annual cash back to their members depending on their purchases.

Local Co-ops across Western Canada return millions of dollars to their members and communities every year.

BULK FUELS

ORDERS MADE EASY

Order bulk fuel and propane through your local Co-op or the Co-op app.

TIMELY, LOCAL SERVICE

A dedicated Co-op Fuel Team member will deliver your order to your location.

TANK UPGRADES

Our team of experts can help you make your operation more efficient by replacing — or expanding — fuel storage.

COMMERCIAL ACCOUNT OPTIONS

Commercial accounts can provide 24/7 access to a local Co-op Cardlock location or the entire network.

CO-OP CARDLOCK LOCATIONS

CO-OP HIGH PERFORMANCE GASOLINE

All grades of Co-op High Performance Gasoline are enhanced with an aggressive detergency package that protects both modern and legacy engines. This formula is adjusted 10 times per year to:

- Ensure optimal seasonal performance
- Enhance fuel economy
- Protect all gasoline engines
- Improve vehicle performance
- Reduce harmful emissions

CO-OP TOP TIER GASOLINE

	BEFORE	AFTER
Injector		
Valve		

Co-op High Performance Gasoline is TOP TIER™ certified and is available at all Co-op Gas Bar locations in Western Canada. Regular, Mid-Grade and Premium blends may contain up to 10 per cent ethanol. Contact your local Co-op for more information.

MORE POWER.

MAXIMIZE FUEL ECONOMY AND POWER OUTPUT

Co-op Premium Diesel is TOP TIER™ certified – the premium standard for diesel performance – and is recognized and endorsed by the world’s top engine manufacturers and automakers. We achieve this by producing a seasonally blended fuel that exceeds the diesel fuel specifications of the Canadian General Standards Board (CGSB) for several key performance traits.

When you choose Co-op Premium Diesel, you pay the regular diesel price for a fuel that outperforms the competition. Containing a powerful package of additives and detergents not available in standard competitor diesels, Co-op Premium Diesel guards your equipment against expensive repairs and unnecessary downtime – benefits that are available to you at no extra cost.

To learn how Co-op Premium Diesel can maximize output, improve fuel economy, and protect your equipment against fuel deposits, click here.

[LEARN HOW](#)

MORE POWER • EXTRA PROTECTION • BETTER PERFORMANCE

STAY READY.

**HIGH
PERFORMANCE
DIESEL**

YEAR-ROUND POWER AND PERFORMANCE

When it comes to the productivity and efficiency of your operation, every decision counts. One of those decisions is how you fuel your equipment. You need to be sure that it will run efficiently and without unnecessary downtime, especially during your busiest seasons.

Count on Co-op and your local Co-op Fuel Team to keep your equipment fuelled with Co-op High Performance Diesel that is refined in Western Canada for Western Canada. It is engineered to meet or exceed fuel specifications set by original equipment manufacturers (OEM), and those of the Canadian General Standards Board (CGSB).

Co-op High Performance Diesel is seasonally blended and includes an additive package that protects your equipment, ensuring your equipment performs at its best, even in the most challenging weather conditions.

Click to find the next Co-op Cardlock along your route.

ACCESS THE LARGEST CARDLOCK NETWORK IN WESTERN CANADA 365 DAYS A YEAR WITH A CO-OP COMMERCIAL ACCOUNT.

CO-OP COMMERCIAL ACCOUNTS

There are two types of commercial accounts: Local Co-op Commercial Accounts and Federated Co-operatives Limited (FCL) Accounts. The difference between the two accounts is primarily related to the geography of your operations and determining who administers the account.

LOCAL CO-OP COMMERCIAL ACCOUNT

Administered by local Co-ops, these accounts have access to specific cardlock locations within a defined region. Depending on the local Co-op, access to the entire network may be available. With a Local Co-op Commercial Account, you receive the following:

- Competitive local fuel pricing
- Scheduled deliveries on account
- Monthly invoicing
- Membership benefits at your local Co-op

FCL COMMERCIAL ACCOUNT

Administered by Federated Co-operatives Limited (FCL), these accounts have access to the entire network of more than 400 conveniently located Co-op Cardlocks across Western Canada. With an FCL Commercial Account, you receive the following:

- Competitive pricing across Western Canada
- Customized product access
- Weekly, bi-weekly or monthly invoicing
- Automated pricing letters upon request

WE DELIVER CERTAINTY

THE LARGEST ENERGY NETWORK IN WESTERN CANADA

No matter your industry – construction, mining, forestry, agriculture and more – you need an energy partner to deliver your fuel where you need it and when you need it.

Co-op is ready to meet that demand. With more than 870 fuel trucks in our network, Co-op delivers more than volume – we deliver certainty across Western Canada.

Talk to your Co-op Fuel Team to get started.

BULK PROPANE

Every day, Western Canadians rely on propane to fuel their homes, businesses, farms and vehicle fleets.

Since 1967, Co-op has been offering a comprehensive suite of propane products and services. With a complement of trained professionals and support staff on hand, Co-op ensures that proper installations are carried out by its own experienced and licensed gas fitters. Today, Co-op supplies and serves members and businesses with all their bulk propane requirements.

BULK DELIVERIES AND SERVICES

- Custom or automatic delivery options
- Remote tank inventory level monitoring
- Full-service installation packages with options including trenching, locating utility-lines and obtaining permits are carried out by licensed gas fitters

- Tanks — ranging from 120 U.S. water gallons (USWG) to 2,000 USWG — and equipment including skidded tanks and vaporizers
- Expert advice for proper storage, compliance and service interval requirements

Our team members live and work in the communities they serve and are committed to upholding all propane-industry safety standards for our members.

AN UNMATCHED NETWORK OF LOCAL CO-OP LOCATIONS OFFERING PROPANE SERVICES ACROSS WESTERN CANADA.

COMMERCIAL

Applications: Construction, heating and hoarding, ground thaw, fleet, power generation, cooking applications, mining, lawn equipment and asphalt plants

RESIDENTIAL

Applications: High-efficiency furnaces, boilers, water tank heaters, washers/dryers, refrigerators and outdoor appliances, pool heaters and back-up power generators

AGRICULTURE

Applications: Building and water heating, irrigation engines, grain drying, standby generators

PROPANE AUTOGAS

Applications: Forklifts, commercial fleets, school buses and passenger vehicles

INDUSTRIAL

Applications: mining, oil and gas, and manufacturing

When it comes to finding the right bulk propane storage for your farm or home, asking an expert will save you time and money in the long run. With over 50 years of experience and trained professionals, Co-op recommends the right-sized tank for your needs so you can avoid run-outs during peak seasons.

120 GALLON

Best for grain bin heaters, small space heating applications and fuelling small appliances. An upright tank is approximately 4' 8" tall and 30" in diameter.

250 GALLON

Used for lower consumption home, garage and shop heat. Approximately 3' 8" high and 7' 10" long with a diameter of 30".

500 GALLON

Best fit for home, garage, small barn and shop heating and small grain dryers. These are approximately 3' 10" high and 9' 10" long, with a diameter of 38".

1000 GALLON

Commonly used for larger homes, garages, shops, barns and higher capacity grain dryers. Multiple tanks may be combined to meet the storage demands of high consumption applications. They are approximately 4' 4" high and 15' 11" long, with a diameter of 41".

2000 GALLON

Used for high consumption heating applications such as grain dryers or poultry and hog barns. Approximately 4' 8" high and 24' long, with a diameter of 46".

PREMIUM LUBRICANTS

ENGINEERED FOR CANADA

The harsh Western Canadian climate creates challenges for equipment and machinery, which is why Co-op Premium Lubricants are blended and engineered to withstand these conditions.

Featuring a mixture of carefully selected base oils and rigorously tested performance additives, Co-op Premium Lubricants meet or exceed industry specifications and provide complete protection in a variety of operating conditions.

Today, Co-op offers a full range of lubricant products for legacy and modern equipment, meeting industry-leading original equipment manufacturers' performance specifications. A Co-op Fuel Team member can easily identify lubricant requirements for your vehicle and equipment.

[LEARN MORE](#)

Complete details and technical data sheets for all Co-op Premium Lubricants are available online. Visit your local Co-op for more details.

DIESEL MOTOR OILS

D-MO® (Diesel Motor Oil) products are recommended for use in all high-output, turbocharged, four-stroke diesel motors with advanced after-treatment devices found in current emission-compliant equipment. D-MO is uniquely blended for both on- and off-road diesel motor applications and stationary engines.

PRODUCTS: D-MO • D-MO Synthetic Blend • D-MO Synthetic

TRANSMISSION HYDRAULIC FLUIDS

T-HF (Trans-Hydraulic Fluid) products are premium, heavy-duty fluids. Each product has been tested against the performance standards of industry-leading original equipment manufacturers that recommend a high-performing single fluid for a common oil-reservoir system.

PRODUCTS: T-HF • T-HF Plus • T-HF Synthetic • T-HF Winter

LEARN HOW

FUELS • LUBRICANTS • PROPANE

GEAR OILS

Gear Oil is an extreme pressure (EP) gear lubricant designed to provide excellent protection to equipment components in various light- and heavy-duty scenarios. Gear FE Synthetic Oil is a synthetic Eaton recommended, extreme pressure (EP) gear lubricant designed for light- and heavy-duty applications, where improved fuel efficiency is desired.

PRODUCTS: Gear Oil • Gear Oil Synthetic • Gear FE Synthetic Oil

MANUAL TRANSMISSION FLUIDS

Co-op's full synthetic manual transmission fluids are formulated for fuel efficiency and severe operating conditions. MTF (MANUAL TRANSMISSION FLUID) SYNTHETIC is formulated for extended drain applications, while the MTF EA SYNTHETIC is an Eaton-approved lubricant, formulated for extended drain intervals in heavy-duty commercial vehicle transmissions which require a non-EP transmission lubricant.

PRODUCTS: MTF Synthetic • MTF EA Synthetic

AUTOMATIC TRANSMISSION FLUIDS

ATF (Automatic Transmission Fluid) is recommended for use in a variety of newer and older automatic transmissions. Across the ATF product line, performance benefits include premium low viscosity, cold-weather performance and superior protection.

PRODUCTS: ATF • ATF TYPE F • ATF SERIES LV SYNTHETIC DEX VI • ATF SERIES MV SYNTHETIC DEX III

GASOLINE ENGINE OILS

Elite Gasoline Engine Oils are an exceptional choice for use in the latest turbocharged gasoline direct injection (TGDI) engines and are versatile in meeting the operational demands of all gasoline engine types, in both new and older models. The Elite lineup is sure to provide superior protection against Low Speed Pre-Ignition (LSPI), along with advanced oxidation control and leading engine performance.

PRODUCT TIERS: Elite • Elite High Mileage Synthetic Blend • Elite Performance Synthetic

RECREATIONAL ENGINE OILS

Co-op provides a comprehensive portfolio of high-quality, recreational engine oils. Designed for use in both pre-mix and direct injection applications, these products are formulated to meet a variety of low-ash requirements in either two-cycle and/or 4-stroke engines.

PRODUCTS: DYNAMIX Synthetic Blend • XL-S Synthetic • 4-Stroke Synthetic • 2-Cycle

HYDRAULIC OILS

Co-op offers a complete selection of premium-quality hydraulic oils that use proprietary formulations and unique additive packages to prevent sludge, varnish and corrosion within the hydraulic system.

PRODUCTS: Hydraulic Oil • Hydraulic Oil MV • Hydraulic Oil Zinc Free 46 • Hydraulic XHVI Synthetic Blend

TRANSMISSION DRIVE TRAIN OILS

TORC® Transmission Drive Train Oils are designed to meet the rigid performance requirements and demanding environment for heavy-duty equipment. These oils are made to protect powershift/hydrostatic transmissions, final drives, differentials, torque converters, wet brakes, hydraulics and gear boxes. TORC oils meet the requirements of the Caterpillar TO-4 and, in the appropriate product, the TO-4M performance specification.

PRODUCTS: TORC • TORC Series M Synthetic Blend • TORC Series CW Synthetic • TORC Series HXA (Hydraulic/Hydrostatic)

MISCELLANEOUS OILS

With a variety of fluids designed with specific applications in mind, this lineup is designed to keep equipment running at optimal efficiency.

PRODUCTS: Chain Oil • Saw Guide Oil • Locomotive Engine Oil • Natural (and LP) Gas Engine Oil • Heat Transfer Fluids • AR-Drill Oil • Turbine R&O Oil • Vacuum Pump Oil • Process Oil • De-Dusting Oil

GREASE

Co-op grease products include a premium additive package that provides extreme pressure protection for equipment under heavy load and severe stress conditions. A wide operating range allows you to maintain peak performance in both high and low temperatures.

PRODUCTS: BLUE GUARD • SILVER GUARD Synthetic Blend • MOLY GUARD Synthetic Blend • RED GUARD • POLY EXTREME • FLOW-RITE • GEARBOX GREASE

OPTI-VAULT TANK

Opti-Vault features dual-wall containment for enhanced safety and environmental protection and is ULC S601 certified. Opti-Vault is available in 25,000 and 35,000 litre sizes. Designed to cater to the needs of medium scale operations, Opti-Vault offers the ideal balance between capacity and convenience.

ROAD-VAULT FLAT-TOP MOBILE PETROLEUM TANK

Features low-profile designs for unobstructed rear views and J-bolt or strap hold-down for easy installation and removal. Powder-coated finish prevents corrosion and fading. Transport Canada approved for gasoline and diesel (CAN/CGSB-43.146). Variety of models (L-shaped, double-wall, non-code tanks) and sizes are available.

FUEL-VAULT DUAL-WALL TANKS

Available in a full range of sizes and multi-compartment configurations, AGI Westeel's Fuel-Vault horizontal, dual-wall storage tank is the easiest and most environmentally safe way to store flammable or combustible liquids. Features durable steel construction, secondary shell that provides 100 per cent containment, is weather- and corrosion-resistant, and features gauge and drain openings with lockable weatherproof cover for tanks larger than 11,000 litres.

FILL-RITE PUMPS

FUEL PUMPS AND ACCESSORIES

FILL-RITE 32-VOLT DEF HAND PUMP

Mounts directly to 55-gallon drum. Telescoping suction tube. Ideal for low-volume transfer of fluids. 11 oz. per stroke.

FILL-RITE 115-VOLT FR700V FUEL TRANSFER PUMP

Exceptional heavy-duty durability for a wide variety of fuels. Thermal overload protection. 20 GPM.

FILL-RITE 12-VOLT FR4210HARC FUEL TRANSFER PUMP

Heavy-duty performance in a compact size. Low temperature (-40°C), thermally protected with low amp draw. Junction box rotates 180 degrees. 1" automatic Arctic nozzle, 18" Arctic hose and telescoping suction pipe. 20 GPM.

FILL-RITE 120-VOLT DEF PUMP

All-in-one system is ideal for pumping from an IBC, tote or drum. Self-priming to 6" with a 30-minute duty cycle and integral pulsation damper. 8 GPM.

FILL-RITE 115-VOLT FR610HA FUEL TRANSFER PUMP

Heavy-duty performance in a compact size. Junction box rotates 180 degrees. Thermally protected with low amp draw. 3/4" automatic nozzle, 12" hose and telescoping suction pipe. 15 GPM.

FILL-RITE 120-VOLT NX-120NB-AA CONTINUOUS DUTY FUEL TRANSFER PUMP

Variable speed motor with increased suction lift allows you to fuel all day with less downtime. Low profile, lightweight design. Intelligent audible tones. Built-in remote on/off. Ideal for tall, above ground tanks. 1" ultra-high flow nozzle, 18" hose. 25 GPM.

ACCESSORIES

KRUEGER SENTRY TYPE H GAUGE

A reliable swing arm-type gauge for all types of liquid. Precise control of the swing arm allows for use when space is restricted. 2 NPT, 46" depth.

CIM-TEK FUEL FILTERS

1 3/8" 12 thread 30-micron hydrosorb fuel filter. Removes particulate and detects water. 1" flow.

GPI 12-VOLT EZ-8 FUEL PUMP

Aluminum gear pump is perfect for on-the-go fuelling. Gas station equivalent flow rates, self-priming low maintenance design. Manual unleaded nozzle, telescoping suction pipe, thermal overload protection and factory installed power cord. 8 GPM.

GPI 115-VOLT M-115S-AU FUEL PUMP

Light-duty aluminum gear pump designed for stationary locations with 12" hose, automatic nozzle, 2" spin collar and adjustable suction pipe. Lockable nozzle holder and circuit breaker motor protection. 12 GPM.

GPI 115-VOLT PRO20-115AD/XTS FUEL PUMP

Low temperature (-40°C) fuel transfer pump. Comes with tank adapter, 18" hose and automatic nozzle. 20 GPM.

GPI 12-VOLT PRO20-012AD FUEL TRANSFER PUMP

18" hose, automatic diesel nozzle, telescoping suction pipe and lockable nozzle holder. Factory installed power cord and 40-amp circuit breaker protection. 20 GPM.

SECURE IT. VIEW IT. TRACK IT.

Secure your fuel tanks with individual user access, real-time app alerts, and user-friendly fuel reports.

TEST DRIVE THE DEMO APP FOR FREE

See how Fuel Lock works. Search for "Fuel Lock Device Simulator" on the App Store or Google Play.

Reach out to your local Equip Team member for a demo.

Stop climbing tanks and stop guessing your fuel levels. Tattle 2.0 is the newest universal device from North Star Systems. It's compatible with any gasoline or diesel tanks with pressure-style or float-style gauges.

Supported by the Tattle Systems Go platform, you can check your fuel levels and receive alerts from your phone or desktop anytime, anywhere. One platform, one app, every tank. A versatile solution you can rely on whenever the work needs to get done.

Take control of your fuel. Ask your local Co-op about Tattle 2.0 today.

JACKS AND ACCESSORIES

BIG RED 60" FARM JACK

Heavy-duty, high-grade steel. 6000 lb. capacity.

TORIN 5-PIECE JACK SET

Combo pack includes 2-ton hydraulic jack, 2 jack stands and 2 wheel chocks.

BIG RED 40" MECHANIC'S CREEPER

Adjustable. 6 rolling, swivel casters. Padded with adjustable headrest. Extra-thick foam padding is up to 50% thicker than padding on comparable standard-size creepers. Heavy-duty tubular steel. Supports up to 250 lb.

At Co-op, we understand that having the right lubricant on hand for your equipment can be the difference between getting the job done and calling it an early day. That's why our Lubricant Bulk Delivery Program offers reliable and efficient service to alleviate pain points like packaging and disposal while reducing the need to constantly monitor your inventory.

WHY GO BULK?

There are a number of reasons to consider Co-op's Lubricant Bulk Delivery Program, such as:

- Decreasing your inventory purchasing costs
- Receiving multiple products and grades in a single delivery
- Reducing packaging and waste
- Receiving deliveries year-round
- Improving your shop and product usage efficiency

Even in the extreme cold of a Canadian winter, our trucks are capable of pumping a tote of D-MO 15W-40 into a storage unit in roughly 10–15 minutes. That's less time out of your day dealing with deliveries and storage. Plus, having

the peace of mind knowing that you'll have access to the product you need at the most critical time is important, allowing your operation to run smoothly and efficiently.

Whether you have the storage or need to start from scratch, the Co-op Lubricant Bulk Delivery Program helps you on the path to saving more time and money.

Contact your local Co-op for program details and find out how you can qualify to upgrade your lubricant on-site storage.
